

I seminari del Master in

TECNOLOGIE BIOINFORMATICHE APPLICATE ALLA MEDICINA PERSONALIZZATA

Venerdì 29 settembre 2006 – ore 10.30
Polaris – edificio 2 – sala conferenze
Loc. Piscinamanna - Pula (CA)

Programma dei lavori

10.30

Network Analysis Methods for Combining SNP and Gene Co-Expression Data

Jeanette Papp - Statistica genetica; University of California, Los Angeles - U.S.A.

Bioinformatics in Human Genetics, Dr. Papp is the Director of the UCLA Genotyping and Sequencing Core Facility, and a member of the UCLA Bioinformatics Core. In addition to overseeing data generation and analysis in the laboratory, her research interests include developing novel bioinformatic solutions for the management and analysis of all types of genetic data within the Department of Human Genetics.
