SARDEGNA RICERCHE
Loc. Piscinamanna – Edificio 2 – Pula

**Moderator:
Stuart Youngner**

Stuart Youngner: Case Western University Reserve, Cleveland, USA

Since Nuremberg, Informed Consent is the legal and moral framework for patients participation in research. In the past few years new issues have challenged informed consent:

- 1) International research by resource rich countries in resource poor countries;
- 2) Research, usually, genetic, on stored tissue samples
- 3) The growing bureaucratic challenges of IRBS (Research Committees)
