

## WORKING TO BUILD THE FUTURE

- ◆ Start-up creation
- ◆ Patents and trademarks
- ◆ Funding and consulting
- ◆ R&D and technology transfer
- ◆ Internationalisation

SARDIGNA CHIRCAS  
SARDEGNA RICERCHE

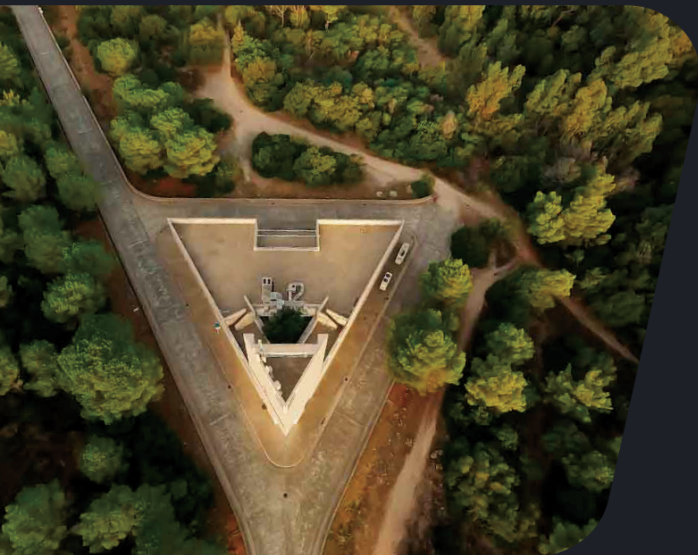

**Innovation is  
born from wonder,  
flies into the unknown  
and comes back with  
visions of the future.  
And here you'll  
always have a  
front row seat  
to enjoy this  
endless wonder.**

**SARDIGNA CHIRCAS  
SARDEGNA RICERCHE**

**A BRIDGE TO INNOVATION**

## SARDEGNA RICERCHE AT THE FOREFRONT OF INNOVATION

Sardegna Ricerche is the Regional Government of Sardinia's Agency for innovation and technology transfer.

Since 1989 it has been working alongside the island's companies, supporting them in the development of innovative ideas and products and helping to expand the Sardinian innovation ecosystem.

It promotes collaboration between businesses, Institutions, Universities and Research Centers through innovation and technology transfer projects.

Key technology areas:

- Biomedicine
- Renewable energy
- ICT and AI
- Circular economy and Agribusiness

## PLACES AMONG ENDLESS WONDERS THE TECHNOLOGY PARK

The evocative natural scenery of Sardinia, one of the largest Italian islands, surrounds the Regional Science and Technology Park, built by Sardegna Ricerche in 2003.

The Park's four locations, placed strategically throughout the island, provide equipped spaces and state-of-the-art technological laboratories for companies.

The Park is also home to excellent public Research Centers such as CRS4, Porto Conte Ricerche, and the IMC Foundation (International Marine Centre).

## FLYING WITH INNOVATORS SERVICES

Sardegna Ricerche helps local businesses to improve and innovate. It offers a vast selection of services and financial aids for companies and Research Centres in order to:

### Develop innovative start-ups

Technical and financial support throughout all phases of a business life cycle, from the idea to the market.

### Protect intellectual property

Legal advice, techniques and information to protect the ideas of entrepreneurs and researchers.

### Ensure access to public funding

Management and promotion of regional, national and EU programmes dedicated to research and innovation.

### Foster the relationship between research and business

Research and Development (R&D) projects in collaboration with Universities, Research Centres and SMEs.

### Help businesses compete in global markets

Incentives to encourage companies to participate in international trade fairs and networking events.
